THE SEASON OPENED!—Whatever misgivings may have been felt at the ecommoncoment of the season, in relation to the part which Newport was destined to act in the great fashionable drama of 1859, all doubts are now dissipated. The programme opens this week with a briskness which resembles that of former years when Newport was No. 1 in the list of watering places. The hotels are fast fitting up, and some are already tall to overflowing. The Ucean House was abliged to refuse some thirty applications on Monday night.

The programme of testivity the present weak

embraces every evening, and in our instance two cutertainments coour on the same evening. Monday evening was the Hop at the Fillmore House; lust evening the concert of Madame Frezzolini; this evening a Hop at the Ocean liouse; to-morrow afternoon the second musical entertainment by the Germanians at Fort Adams, Concert by the Black Swan at Aquidneck liail, and Hop at the Atlantic House: Friday evening Hop at the Belle Vue; Saturday evening Reception at the Ocean House.

We make the following extract from last Thursday's productings of the American Scientific Convention of Springfield. Referring to a locality in relation to which there is curious, (though of course fabulous,) legend, it will undoubtedly interest many of our readers, who prefer science to humbug: conglouenate near newport.

who prefer squence to humbug:

CONSLOBERATE NEAR NEWPORT.

Prof. Hitchcock, at the afternoon seesien, read a paper upon the "Conglomerate" near Newport, [Aliddistown.] R. L., with elongate publies and transverse joints. Mine-tenths of this conglomerate cousies of pobbles are mostly of quarts, occasionally, however, having other materials in their combination. They are not of the same shape as those usually found in conglomerate, but are elongated, with their longer axes always parallel. Some are a foot in diameter. In this rock, also, irregular at intervals, are jowerful "Joints," crossing the ridges, parallel, and cutting through the publies like the swend of a Titan, learing them generally with smooth there as if planished and not broken. "Purgatory," well known to visiture at Newport, is a cave octiveen two of these joints, caused by dendding agencies, probably the ocean, acting upon the conglomerate. He knew of no force which has given the publies their dongated form; seme lateral force had apparently pressed them togethor. He inhered tax when this took place the publies were in a plastic state. Each a fact as this has an important bearing upon the state of things when our metamorphic rocks were formed. Several specimens et Less curious publies were exhibited, which "were examined with great interest.

FAST DRIVING .- There were two cases before FAST DRIVING.—Interest returns cases before the Court of Justices yesterday in which two the present month, states that the uses of men were prosecuted for fast driving. The Mayor gas-light in this country commenced in informs as that in future the Ordinance against Buttimore, in 1825, and in Bristol, R. I. informs us that in future the Ordinance against fast driving will be rigidly enforced. The lives of people, and especially children, are ay andangered by the reckless driving of some hair-brained son of Jehn who wishes to try the mettle of his steed or steeds, and chooses the public streets as his field of operations. The following is the Ordinance:

An Obsolere Ordinance. Our attention has been directed to an Ordinance which we were not previously aware was in existence It is as tollows.

Every person so oftending shall furfult and pay for every oftence not less than two deltars, nor more than ten dellars.

As the Committee deem this a "luxury" that an be dispensed with on that occasion, if any thing is done in that line it must be by individual subscription. Who says I ire-Works?

We are pleased to learn that the Co mmittee for the celebration of the Twenty-third, have secured the services of Shepard's Cornet Band for that occasion. This is one of the best Bands in New England, as our citizens will decide after listening to their performance

SEATS IN THE MALL. The City Council, at its last session, nuthorized the creetion of seats in the State House Mail. If we are to have them this senson, it is time they were there Why don't we get the seats?

TURKISH GRAVE-YARD.-The Turkish tombstone, if it marks the grave of a man, is summounted by a turbon, and the diversity of forms shows the different generations that have passed away. These round-beaded turbaned stones, have very much the appearance of dwarlish imps, and one almost expects a pair of graggic-eyes to be prering from beneath the well-executed falls of white or gray stone. Those erected for women are decorated with wreaths or bunches of flowers. Both kinds have inscriptions, and are often colored and highly gittled. -Sometimes they are of a bright azure blue, richly decorated with gilt and extremely beautiful.

The Plymouth Rock states that the cost of the Pilgrim Monument, when fully com-pleted, will be about \$300,000, of which rum about \$45,000 has been subscribed. The time absolutely necessary for its com-pletion will be about six years, but this may be prolonged in order to obtain the amount of funds necessary to delray the expenses.

hand, with the price ranging at 7c. a 8c.

A secret Vigilance Committee was recently organized in Kansas, for the purpose of taking measures to break up the extensive gangs of horse thieves and robbers
which have long infested the Territory.
The opporations of the Committee, according to the Lesvenyouth Times have been ing to the Leavenworth Times, have been swift and sure. One or two men have suffered the death penalty, and others have been compelled to confess their crimes and expose their associates. By these means, sufficient knowledge has been obtained to insure the breaking up of the gangs, and the Committee has now been disbanded.

It is positively stated, on the authorité of a United States Marshal, that a cargo of six hundred Africans has recently been landed on the coast of Florida, near Tampa. The vessel in which they ported was set on fire and abundaned.

PROFESSOR WOOD'S

Says the St. Louis (Mo.) Democrat: Betw, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glewingly of the superior merits of his hair tonle. Such evidence must have its effect; when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

from the press Bath, Maine, Jan. 29, 1859:
Professor O. J. Wood & Co:
Gentlemn: Having my attention called a few months since to the highly beneficial effects of your light-restorative, I was induced to make application of it upon my own hair, which hid become guite grey, probably one-third, white; my whiskers yerre of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about a week! and wished. I used it about a week! I have since procured another bottle, of which I have sized some. I can now certify to the world that the grey or white hair has totally disappeared, buth on my head and face, and my hair has resumed its natural color, and I believe, more soft-land glossy than it has been before fortwenty-sive years. I am now sixty years old; my good wife at the age of fifty-two has used it with same offect.

The above natice I deem due to you for your valuable discovery. I am assured that wheever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is nt your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours,

WOOD'S HAIR RESTORATIVE, Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1861. I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glassy, and no words can express my follogations to you in giving to the afflicted such a treasure.
